Final Project Rubric

Section or Criteria	Weight	Unsatisfactory	Below Satisfactory	Satisfactory
Presentation: Introduction and Background	10%	Missing or weak	Weak, only one slide, very little context	Full context of problem, engaging framework that pulls audience in and explains the bigger picture of your research
Presentation: Methods	35%	Missing, unclearly presented	Unclearly presented, inappropriately used methods	Logical, thoughtful methods to approach the problem at hand, clearly articulated in presentation
Summary/Results	30%	Weak results, not well conveyed. No mention of interesting discoveries, etc.	Weakly conveyed results	Clearly conveyed results showing strong performance and explaining any weaknesses in model performance. Also, description of interesting discoveries
Recommendations/Conclusions	10%	Not present	Weak	Strong conclusion or recommendation. Thoughts about next steps or extension of research
R Code	15%	Missing or very messy and very difficult to follow	Unclear, missing details. Difficult to understand what was done by student	Clear, step-by-step document describing process of student in taking raw data and working to results.
